## PROFESSIONAL SUMMARY

Java Backend Software Engineer with 2+ years of experience designing, developing, and maintaining backend applications and RESTful APIs using Java 17, Java 21, and Spring Boot. Experienced in implementing business logic, API validation, database integration, authentication and authorization, exception handling, and application workflows. Strong hands-on experience with Spring Data JPA, Hibernate, Spring Security, JWT, PostgreSQL, MySQL, SQL Server, Redis, Git, Maven, Docker, and Postman. Experienced in developing e-commerce, sports booking, inventory, and enterprise backend applications.

## TECHNICAL SKILLS

**Languages:** Java 17, Java 21, SQL  
**Backend:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security, REST APIs  
**Architecture:** Controller-Service-Repository, MVC, RESTful Architecture  
**Databases:** PostgreSQL, MySQL, SQL Server, Redis  
**Security:** JWT, Authentication, Authorization  
**Tools:** Git, GitHub, Maven, Docker, Postman  
**Frontend:** React, JavaScript, HTML, CSS, Tailwind CSS  
**Other:** API Integration, API Debugging, Exception Handling, Razorpay

## PROFESSIONAL EXPERIENCE

**Software Engineer | ISEES Technologies LLP** Jan 2026 – Present

- Developed** and maintained RESTful APIs using Java 17, Java 21, and Spring Boot to support business workflows and application functionality.
- Implemented** backend business logic, request validation, exception handling, and reusable components using Spring Boot.
- Designed** backend functionality using Controller-Service-Repository architecture with Spring Data JPA and Hibernate.
- Integrated** PostgreSQL, MySQL, and SQL Server for database persistence, relational data management, and SQL-based backend operations.
- Implemented** API authentication and authorization workflows using Spring Security and JWT where required by application functionality.
- Debugged** REST API and database issues using Postman, SQL queries, application logs, and backend debugging techniques.
- Collaborated** with frontend developers and team members to analyze requirements, implement backend features, resolve defects, and deliver application functionality.

**Associate Software Engineer | ISEES Technologies LLP** Jul 2024 – Jan 2026

- Developed** backend modules and REST APIs for web and enterprise applications using Java and Spring Boot.
- Built** CRUD APIs using Controller-Service-Repository architecture and implemented application business workflows.
- Implemented** request validation, business rules, exception handling, and database operations using Spring Data JPA and Hibernate.
- Worked** with PostgreSQL and SQL for database queries, data persistence, and backend application integration.
- Tested and debugged** REST APIs using Postman and application logs to identify and resolve backend issues.
- Collaborated** with development team members to understand requirements, implement features, and resolve defects.

## KEY PROJECTS

**GrandMart – Multi Outlet System** Java / Spring Boot / PostgreSQL / Redis / Docker

- Developed** backend modules for product, category, inventory, employee, and sales management using Spring Boot.
- Built** REST APIs implementing CRUD operations, business validations, database integration, and application workflows.

**DOOB Booking System** Java / Spring Boot / PostgreSQL / Redis

- Developed** REST APIs for venues, courts, slot availability, booking, cancellation, pricing, and booking validation.
- Implemented** Redis-based slot locking to help prevent duplicate bookings during concurrent booking requests.

**AamZone – E-Commerce Platform** Java / Spring Boot / PostgreSQL / Spring Security / JWT / JPA

- Developed** REST APIs for products, categories, inventory, customers, cart, and authentication workflows.
- Implemented** JWT-based authentication and authorization using Spring Security with PostgreSQL and Spring Data JPA persistence.

## EDUCATION

**M.Sc. Computer Science** CGPA: 6.73/10

Abeda Inamdar Senior College

**B.Sc. Information Technology** CGPA: 8.14/10

Hirval Education, Mahad | Mumbai University
